Hun Ambassador Reported As Threatening to Bombard Constantinople

LONDON, Aug. 15. (British Admiralty Wireless Report)—Differences between the Germans and Turks are becoming more frequent and bitter, according to information received from Constantinople. During a quarrel with Talatah Pasha recently, the German ambassador is reported to have threatened to bombard the city.

Advices from Constantinople say leaflets dropped by British aviators are read by the population with sympathetic interest. Posters recently found on the walls of mosques and government buildings declaring that the Germans are the real enemies of Turkey called forth a strong protest from the German ambassador and a demand for an inquiry.

Talaat replied it was impossible to discover the authors. The ambassador then announced that German military police would take charge of the inquiry. On the following day he informed the grand vizier the offending officers were in government service and therefore punishment should be exceptionally severe.

Talaat retorted that before punishment he would institute his own investigation. Violent discussion followed and the German ambassador went so far as to threaten the grand vizier with bombardment of Constantinople with guns of the battle cruiser Goeben.

TRENCH WARFARE RESUMED AGAIN BY BRITISH

Near 400,000 Germans Are Massed For Stiff Resistance Between Albert, Noyon

BY WILLIAM PHILIP SIMMS (United Press Staff Correspondent)

WITH THE BRITISH ARMIES IN FRANCE, Aug. 15.—It is a week ago today since Field Marshal Haig pushed through the German lines between the Acre and the Avre, carrying the war into the open fields on the plateau east of Amiens.

Today finds the lines resolidified and trench warfare going on again. The Germans are prepared to put up a stiff fight anywhere between Albert and Noyon. Crown Prince Rupprecht has massed between 30 and 40 divisions there (probably from 360,000 to 380,000 men).

TUG MEN THREATEN STRIKE, BAY CITY

SAN FRANCISCO, Aug. 15.—Demanding a nine-hour day and three meals, captains and engineers employed by the Stack Steam Tug Company threatened to strike today.

According to Manager Crowley of the company, the captains have already been granted a \$25 increase a month in their pay and the engineers a \$15 increase, with Sundays and holidays off. The threatened strike would involve 500 men and tie up considerable shipping here.

U. S. ARMY IN GOOD HEALTH, THANK YOU

WASHINGTON, Aug. 15.—Combined health reports from overseas forces and from camps and cantonments in this country show that the health records of American troops have never been surpassed before, so low is the death rate, Surgeon General Gorgas announced.

The combined hospital death rate of forces here and overseas is 1.9 per thousand men. The death rate of men of the same age in civilian life is 6.7.

LOOK FOR BIG EVENTS

VITAL PROBLEMS RELATING TO RUSSIA, BALKANS, OR MEXICO MAY BE INVOLVED

President Leaves Suddenly For Conference With House, Ostensibly For Rest; Threat of Mexico Oil Tax, Hostile Attitude of Bolsheviks, or Friction Between Bulgaria, Turkey, and Germany May Be Causing Momentous Developments to Be Decided On; International Situation Delicate.

WASHINGTON, Aug. 15.—Without the necessary tangible evidence for conviction, there nevertheless was a distinct feeling in official quarters here today that diplomatic events of the first magnitude are brewing.

President Wilson after a long conference with Secretary of State Lansing yesterday afternoon suddenly left to visit his personal friend and confidential adviser, Col. E. M. House, at Magnolia, Mass. He left last evening on a special train and is there today.

It was officially stated the President was off "for a rest." It was explained the President had been wanting to get away for a short time for some weeks but events have been such as to prevent it. He carried with him several problems to discuss with his adviser. At the same time there have been most significant—and in some cases most delicate international problems breaking out on the world situation during the last week, any one of which might prove a "poser" for the United States at this time. They include:

1. The threat of Mexico to practically double her tax on oil and enforce other measures against foreign oil interests there, despite objections from Great Britain and the United States.

2. The distinctly hostile attitude of the Bolshevik leaders in Russia to the Allies, their arrest of Allied consuls and vigorous hostilities against the Czechoslovak troops in Siberia.

3. The increasing gap between Bulgaria and her Teuton allies and the growing possibility of an armistice between that nation and her enemies.

Were it not for this chain of circumstances, coupled with the extended conference the President had with Lansing before leaving and the suddenness of the trip it might well be and possibly is true that his visit to Col. House is merely for rest.

With him are Mrs. Wilson and Dr. Cary T. Grayson, his private physician.

Regarding the possibility of diplomatic developments, however, there is much to be said.

Foreign oil producers in Mexico declare the government's proposed steps, expected to become effective within a few days, amount to confiscation and will endanger the supply of oil upon which allied naval forces are dependent. Tampico wells are being liberally drawn on for this purpose, although oil experts here say the vast natural supply of that region is barely tapped.

Mexico has seized the chance to fill her coffers with revenue from oil. The fact that it is one of the war necessities makes it the subject of heavy excise by the Mexican government.

Mexico is understood to have informed Great Britain, following the latter's protest of Carranza's proposed action, that she will permit no diplomatic interference in this question. The note is taken to be a broad hint to the United States also not to interfere. American interests have already registered a protest and representatives have been negotiating with the Mexican government for sometime.

Passing to Russia, Bolshevik outrages against allied representatives in Moscow have astounded official Washington.

Arrest of British and French consular staffs at Moscow and invasion of the consulates is reported in official cables of the state department.

American affairs there have been turned over to the Swedish consulate.

Although no Americans have been seized, according to latest reports, British and French citizens have been imprisoned.

The Bolsheviks announced they would hold these as hostages because of the attack on the soviet government by the landing of British at Archangel.

Germany is conscripting Russian men, according to unofficial reports from London and brigading them with German and Hungarian soldiers.

Bulgaria meantime is growing bolder in his denunciation of Germany and Turkey.

The bitter opposition is over German and Turkish territorial disputes and has undermined her morale in fighting for the central powers.

Warm words against Germany and Turkish statesmen are freely expressed in public meetings, on the streets of Bulgarian cities and in the press, according to advices received in entente diplomatic quarters.

Turkey wants to recover territory ceded to Bulgaria in 1913 which includes the fertile Maritsa valley. She also wants Dobrudja in payment for her former Balkan campaign.

The combined hospital death rate of forces here and overseas is 1.9 per thousand men. The death rate of men of the same age in civilian life is 6.7.

ESCAPED GERMAN BOMB PLOTTER CAUGHT IN SPAIN

WASHINGTON, Aug. 15.—Robert Fay, notorious German bomb plotter, has been arrested in Spain, the navy department announced today. Fay escaped from the Atlantic penitentiary about a year ago. He is being brought back, the state department said, without extradition.

The crew abandoned the vessel shortly after the U-boat appeared and began firing. The attack took place six and a half miles off Northeast End lighthouse near Camp May, N. J.

Aviators arriving over the scene reported they saw a wake and bubbles and depth bombs were dropped, exploding near the bubbles.

The crew of the Dorothy Barrett was landed at Camp May. The vessel was on fire, according to the last reports the navy received. Whether she sank later is not known. The Dorothy Barrett, which was an American schooner, was bound from New York to Norfolk.

CALIFORNIA CORPORATIONS DELINQUENT ON TAXES

SACRAMENTO, Aug. 15.—More than 1000 corporations in California were delinquent in the payment of the corporation franchise tax, State Treasurer Richardson announced today. The amount of delinquency, however, is not large, he said.

In answer to Mrs. Crawley's summons, police found Maas seated on the front steps of the home muttering to himself. "I've killed my mother; I've strangled her." He refused to give any explanation for his act. He was taken to the detention hospital for examination.

Mrs. Crawley said her brother's mind had been affected by financial troubles and the recent death of his sweetheart. She stated she had found her mother's apartment locked and her brother in the kitchen inhaling gas from a stove.

SINN FEIN MEETINGS ARE FORBIDDEN BY AUTHORITIES

Officials Declare Societies Must Secure Permits As Other Organizations Do

DUBLIN, Aug. 15.—The Lady Day meetings scheduled for Omagh on Lady Day by Sinn Feiners and Dillon followers have been forbidden by the authorities here unless officials of the organization obtain the permits required for all gatherings.

Ignoring the rule requiring permits, officers of the Sinn Fein have instructed their 1800 societies to go ahead with their meetings apparently intending to force a showdown with the government.

John Dillon, labor leader, left early today for Omagh, where he was to address a gathering this afternoon.

TREASON BLAMED BY FORMER CZAR FOR HIS AbdICATION

Portions of Alleged Nicholas Diary Are Made Public In Russian Newspapers

COPENHAGEN, Aug. 15.—Copies of Russian newspapers received here contain part of the diary kept by Former Czar Nicholas in which he recounts incidents leading up to his abdication, laying that occurrence to treachery and cowardice.

The diary was made public by the central executive committee.

Excerpts follow:

"On February 14, 1917, I returned from Wischash station while the revolutionaries were occupying Ljubljana.

Tosno, Luga and Gabchina. I spent the night at Pskoff. I was unable to proceed to Tsarkoe-Selo, but my thoughts and feelings are how difficult it must be for poor Alice (the czarina) to resist the events and the loneliness. God help us.

"February 19.—The Rusky came this morning and I read of a telephone conversation with Rodzianko, who believes the situation in Petrograd is now such that the cabinet and the duma are powerless. My abdication was necessary."

Later he wrote that he left Pskoff with a strong impression that events had been caused by treason and cowardice.

2 COUNTY BOYS IN LIST OF MARINE GRADUATES

Get Commissions As Second Lieutenants In the Marine Corps

BY J. W. T. MASON
(United Press War Expert)
NEW YORK, Aug. 15.—Marshal Foch is developing a new flanking movement along the Oise river to the southeast of the present fighting front as his answer to the stabilization of the German line west of the Somme.

This movement is for the purpose of avoiding the heavy casualties of direct attacks. Like Marshal Foch's other tactical opinions, beginning with the allied advance northward from the Marne, it is also an effort to substitute operations of maneuver above ground for the old strategy of trench fighting.

Both the Marne and the Picardy campaigns show that German leadership is inferior to that of the Allies. This fact is destined to have a highly important bearing on the future conduct of the war. In many quarters it has been believed that the long years of exclusive study of military science by the Germans had made them the tactical superiors made them the tactical superiors of all other commanders.

The Orange county boys who are now lieutenants are Earl S. Eastham of Orange and C. H. Pettigrew of Brea. Other California men in the list are Guy Lewis of Los Angeles and R. Skinner of Dos Palos.

L. A. MAN KILLED ON TORREY PINES GRADE

LOS ANGELES, Aug. 15.—Shortly after saying good-bye at San Diego to his son, who was leaving for an eastern training camp, Willett S. Bailey, 58 years old, of No. 813 Kensington road, this city, until recently appraiser of the Federal Land Bank at Pasadena, was instantly killed yesterday afternoon in an auto accident at Torrey Pines grade.

Mr. Bailey was accompanied to San Diego to say farewell to his son, Lieutenant H. Bailey of Fort Rosecrans, by Mrs. Bailey, his widow; Arthur H. Bailey, his brother, and Miss Abbie Pearson of Long Beach. Lieutenant Bailey is a surgeon. He had boarded his train, and Arthur H. Bailey drove the son's auto back to Los Angeles. The officer's father followed in his own car. The car went over a steep grade at Torrey Pines and dropped several feet, crushing him and throwing Miss Pearson on her face. She was cut on the face and head. Mrs. Bailey was only slightly injured.

MIXED JURY AGAIN AT WORK ON DAMAGE SUIT

LOS ANGELES, Cal., Aug. 15.—Ten men and two women awoke early today ready to continue their deliberations as a jury in a \$65,000 damage suit, after having spent the night in a sample room at a local hotel. The jury was unable to agree and under the law could not be separated for the night's lodging. So the men slept in the sample room proper, and the women in the adjoining ante room with the door open. They had the evidence to sleep on.

HUMBERT TELLS HIS PROGRESS IN RECENT OFFENSIVE

French Waited Two Days, Then Struck and Advanced Over Rough Ground

By LOWELL MELLETT
(United Press Staff Correspondent)

WITH THE FRENCH ARMIES IN THE FIELD, Aug. 15.—General Humbert, whose decisive and dramatic appearance in the Montdidier battle Saturday recalled his similar effective part in stopping the German break through in March, today told the United Press about his army's efforts in the past six days.

To begin with Humbert's participation was no sudden conception on the part of Marshal Foch or the high command.

While General Rawlinson and General Debenedetti were opening the new Picardy campaign, Humbert withheld operations and continued quiet for two days. But on Friday night the Germans, realizing the situation was one likely to tempt an attack from his quarter, started withdrawing guns and materials from before his front. They took him into consideration too late. On Saturday morning Humbert's operation opened again with a big burst of fire. Simultaneously infantry and tanks moved forward. They found few boches and these were paralyzed by the suddenness and fury of the attack.

The Germans had no time to prepare for a retreat with the usual machine gun emplacements. As a consequence, Humbert's army reached its first objectives—Cuivres, Reons-sur-Matz and Cheincourt—within an hour.

(This represents an advance of a mile to two miles and a half.)

They proceeded, taking Boulogne la Crase, Conchy-le-Pots and Riequebourg (a further advance of one to four miles).

Instead of continuing to Roys they swung eastward on Sunday, advancing four kilometers (two and a half miles) and gaining strong tactical points. The next day German reinforcements appeared, retarding the advance, but Humbert already had obtained a hold on "Little Switzerland" with the desired strongholds of the Ste. Cloud and Montigny farms.

On Tuesday he pushed a bit farther, getting the dominating line along the massif (heights). Late that afternoon his extreme right, beyond "Little Switzerland," took Ribecourt, which was a corner point in the French line before the advance of 1915 and is still extremely well organized.

The situation favors the French, although fresh German divisions have been identified. Only a sight of this rough, ravine and trench ridden country can show the speed of the French movement. At the same time it tells why the men are momentarily tired, although in the best of spirits on account of their accomplishments being made at the slightest possible cost.

TOMATO CANNERY IS SECURED FOR SANTA ANA

Canning Company Takes a Lease Here, Will Start at Once

The Santa Ana Chamber of Commerce this afternoon completed negotiations with the California Tomato Growers association which will result in the association establishing a tomato cannery here. The plant will be located in the old building of the Union Oil Company on Depot street, between the Southern Pacific and Santa Fe tracks.

Hugh Jackson, manager of the company, has been in conference with the Chamber for several days, and was here yesterday looking over proposed sites. Consummation of the deal was effected only this afternoon. The property belongs to the Santa Fe company, and negotiations for its lease were completed in Los Angeles.

The company came here without solicitation, as it recognized this city as the ideal location for a plant of the character it proposes to establish. The extent of the plans of the company and just what character of tomato products it will put on the market is not known. The deal has progressed so rapidly that those who have handled it locally have not had time to get the finer details.

The tests at the Marne and in Picardy therefore, have been tests of brain power. These results have shown that as tacticians in open fighting the Germans are inferior to the Allies. Democracy needs have no uneasiness over the gradual disappearance of the trenches. It was the Germans who first dared the Allies to come out and it is the Germans who are now trying to burrow back into the trenches again. German military science is at its maximum efficiency when it is recklessly slaughtering its own men. The time, however, has now come when this policy can no longer be followed. Technical skill in open warfare has begun to claim its due and the Allies have taken the first victories.

MARTIN CHOSEN AGAIN AS HEAD OF ADVENTIST CONFERENCE

Denomination Most Loyal; Recommend Young People's Revival Meetings

Officers of the Southeastern California Conference of the Seventh-day Adventists, to serve for the next two years, were elected at yesterday afternoon's business session, with the delegates from all parts of the field assembled in the large canvas tabernacle on the Polytechnic High School grounds.

The officers are: President, W. F. Martin; secretary-treasurer, J. C. McReynolds; conference committee, W. F. Martin, J. A. Burden, L. E. Brant, D. D. Lake, R. S. Owen, C. F. Folkenberg, Dr. A. W. Truman. The executive committee will handle the business of the conference in the interim between the meeting now in session and the one two years hence.

Elder Martin has served the conference as its president for the past three years, ever since the Southeastern California field was created by the division of the Southern California Conference. His leadership has been appreciated, and he has won the hearts of the members of the denomination living in this part of the state. In submitting his biennial report yesterday morning he showed that 190 new members joined the Adventist churches in this part of the field last year, and 116 the year before. The local conference includes the counties of Riverside, San Bernardino, Imperial, San Diego and Orange. Mr. Martin said new churches have been organized during the past two years at Fallbrook, Palm City, Calipatria, Elsinore, Fullerton and Blythe. The Fullerton church was received into conference membership yesterday morning.

Adventists Decidedly Loyal

President Martin mentioned with words of commendation the young men of the church who have gone from the local conference to answer the call to the colors. He said that "Seventh-day Adventists are as loyal to the country as any people living, and today stand for the great principles of democracy upon which our government was founded. "We sense the blessings of freedom which have come to us in this land of liberty, and love our land with a true devotion. It is pleasant to know that our young men have carried to the camps a spirit of truth and loyalty that not only has shown their faith to the government, but their faithfulness to God."

Resolutions of thanks to God, and voicing the decision of the delegates to elect their departmental secretaries hereafter, instead of having them appointed by the conference committee, were passed yesterday.

Soul-Winning Campaign

For the strengthening of the young people's organization the following action was passed:

"Whereas, conditions in the world and in the church emphasize the unquestionable need of a deeper Christian experience in the lives of our young people in harmony with the action of the General Conference committee in its recent council, July 9 to 15, 1918, we would

"Recommend that the Missionary Volunteer Department of the Southeastern California Conference at once

undertake to carry forward an earnest soul-winning campaign in behalf of our youth; and that special efforts be made in holding, or assisting in revivals meetings for our young people."

"That in conserving and maintaining this deep Christian experience we endeavor to educate all our people to the daily Bible study and prayer habit, suggesting as helpful the Bible Year plan and the Morning Watch."

Heavenly Jerusalem Described

The vivid description of the heavenly Jerusalem given in the twenty-first chapter of the Apocalypse, was presented to the audience in the large pavilion last night by Elder Eugene W. Farnsworth of St. Helena, Cal. Elder Farnsworth said the city of God will be the eternal home of all who now make peace with their Maker. He said that city of transparent gold, with foundations of precious stones and gates of flashing pearl, is 375 miles on each side. He read the Scripture statement that the New Jerusalem is to be transported to the earth.

"Abraham lived in tents 75 years," said Mr. Farnsworth, "yet he looked for a city whose builder and maker is God. When God finds a man who will appreciate heaven, and who will believe what He says, He is not ashamed to be called that man's God."

The minister's discourse was a blending of such Scriptures as Revelation 21: 3, 4; Isaiah 11: 9; and Isaiah 65: 25: "Behold, the tabernacle of God is with men, and He will dwell with them, and they shall be His people, and God Himself shall be with them, and be their God. And God shall wipe away all tears from their eyes; and there shall be no more death, neither sorrow, nor crying, neither shall there be any more pain: for the former things are passed away."

"They shall not hurt nor destroy in all my holy mountain: for the earth shall be full of the knowledge of the Lord, as the waters cover the sea." "The wolf and the lamb shall feed together, and the lion shall eat straw like the bullock."

LOCAL BOARDS WILL REGISTER FOR DISTRICTS

Orders Received For Taking Names of New 21-Year-old Men Aug. 24

The local draft boards of Orange county this morning received instructions by wire from Adjutant-General Borree for the registration on August 24 of all men who will have become 21 between June 5 and August 24.

Each local board will have but one place of registration for its district and that place will be the board's headquarters.

"I believe that No. 1 district will have not over thirty registrants," said Chief Clerk Overhiner here today. "Our instructions are to take charge of the registration the same as the registration of June 5. There will be no places in the district for registration other than board headquarters."

Cruz at the Border

This morning the local board got a wire from Lieut. O. E. Gladfelter at Campo, Cal., asking for the status of Julian R. Cruz, who is in custody there, for what reason not stated.

A wire replied that Cruz is in class 3. It is thought that Cruz was stopped at the border merely for investigation. He registered at Yorba and got deferred classification.

ALL BOARD NO. 2 MEN TO REGISTER AT FULLERTON

FULLERTON, Aug. 15.—There will be only one place on August 24 for registration of new 21-year-old men in Orange county district No. 2, and this will be at the exemption board's office in Fullerton. During previous registrations the men could register at Anaheim and Huntington Beach, but these offices will not be opened on the 24th. Men of No. 2 district who have become 21 years old since June 5 should present themselves to the local board on Saturday, August 24, for registration.

This should not be confused with the proposed registration of men 18 to 21 and 31 to 45, which it is planned to begin in September.

New men added to the list from which the Camp Lewis contingent on August 26 will be chosen are: M. L. Dankers, Anaheim; P. O. Crawford, Bessie, N. D.; Merrill C. Royer, Fullerton, and E. B. Afeves, Westminster.

IF 21 SINCE JUNE 5 MUST REGISTER AUGUST 24

SACRAMENTO, Aug. 15.—Instructions for the registration August 24 of youths who have become 21 years old since June 5 last will be forwarded immediately to local exemption boards, it was announced yesterday at the office of Adjutant General J. J. Borree. The work of registering the young men will be handled exclusively by these boards, it was announced. It was estimated that approximately 4000 would be registered in California.

CRYSTAL-LAC IS HAVING BIG RUN IN THIS CITY

Local Distributor Reports Large Sales of Wonder Polish

According to J. V. Richardson, of the Santa Ana Rubber Co., Fifth and Birch streets, distributors of Crystal-lac Wonder Polish, the automobileists of Santa Ana appreciate a good thing when they see it if this week's sales of this wonderful polish indicate anything.

"Auto owners are gratified to know that they can renew the finish of their old cars at such a remarkably reasonable figure and they are taking advantage of this wonderful offer," says Richardson. "This polish bears the endorsement of some of the best known automobile polishers and finishers in the United States."

"Among the most ardent supporters of Crystal-lac are the large automobile agencies all over the county, and this fact alone is proof of the wonderful work this polish will do on your car. These are men who have had years of experience in new cars, and men who really know how essential it is to use a polish that will not injure the most delicate varnished finish."

"KETCH 'EM WHERE THEY ARE"

John Smith is distinctly a good citizen. He is prosperous. He bought stock in some companies that have developed. They found oil on a farm left him by his father. He has money in the bank—lots of it. As each of his children became 18, he furnished them with a fast runabout. His wife rides around in a big limousine. John himself rather fancies a Ford or going afoot. His idea of sport is to go out to a ball game in summer and a picture show in winter. He was not until recently exactly sure what the "manly art" meant.

* * * *

John had heard that away down in another part of the city there was a man who used to dress himself up in a steel shirt, stick knives and bombs in his belt, fill his pockets with bottles of poison, and go out on the street with a revolver in each hand, loudly proclaiming that he would bite off the nose and eat the liver of anyone who interfered with him.

When John Smith heard of this, he didn't believe it. In the first place, nobody would be such a fool. In the second place, anyone who did such things was crazy. In the third place, if anyone did such things he would be arrested. In the fourth place, a man might threaten to do such things but he never would really do them. It was impossible.

* * * *

One day John was going down the street, and off to one side he saw a mass of men struggling. He began to ask questions and found that the trouble was started by The Man in the Steel Shirt. This man had started to carry out his threats, had knocked down some women and killed some children, and was then set upon by men who were endeavoring to restrain him. Some neighbors of the man had come to his rescue, and the struggle was getting pretty severe.

John Smith's interest was aroused by this time, and he drew near enough so that the people in the fight, from time to time, would step on his toes, or near them. John didn't like this.

The Man in the Steel Shirt broke away from his assailants just about the time that John Smith's wife and children appeared on the scene. They weren't in the way of the man at all, but he leaped upon them and killed one of the children.

Up to that time, John's feelings had been mixed. He rather admired the cold-blooded way in which The Man in the Steel Shirt was making his struggle and the preparedness which was evidenced all through the fight. However, as none of his family had been injured, he had not expressed any particular feeling one way or the other. The murder of his child, however, without cause, made John shed his shirt and leap into the fray, and the remarkable part of it was that although he was the last to go in, he was the most determined that the struggle should not end by simply turning back The Man in Steel and letting him escape, but that the end should come only when The Man in Steel had been beaten to the ground, had cried enough and had been placed under permanent restraint.

* * * *

That's the situation with the American people. We were slow to go into this war. First we gave Kaiser Wilhelm the benefit of the doubt. Then we gave the German people the benefit of the doubt. Then we decided that while the Prussians might be impossible under their present leadership, that the South Germans might be led through Saxony, Bavaria, Baden and Wurtemberg, to break down the power of the war machine. At last we are awake. But just as it took a long time to awaken us, and just as we took our time when awake to go into the war, just so we will stay in the war until the war is properly ended.

The history of Germany from the earliest times proves that the German people are great fighters—they are very slow to believe that they have made a mistake. But the only way to bring a peace that amounts to anything whatever, is to convince them that they have made a mistake regarding war.

That's our job. It's the only job. Whatever helps to kill Germans is a good thing and a necessary thing, provided that we don't resort to poison or assassination. In other words, even in killing Germans, we must have some limitations on our methods.

* * * *

Now, in order to convince the Germans of their mistake, we must first have men.

Second, we must have munitions.

Third, in order to maintain the men and supply the munitions, we must have money.

We have got to have lots of money—so much money that the imagination of man cannot conceive of the volume.

Some of the money we will get by placing a mortgage upon farms and houses and live stock and grain fields and railroads of the country. That means the issue of bonds.

But some part of the money we must get by taxation. Those in whose hands lies our destiny, have decided that approximately one-third of what the government spends must be raised by taxation.

* * * *

Years ago, up North, at a great fishing camp, there was an old guide who always brought back his party with "plenty much fish in the boat". Man after man tried to find out his secret. On the seventh or eighth trip one visitor made up there, he won the old guide's confidence. The old man, sitting over the fire one night, explained the rule followed by him, which was, "Think like a fish, and KETCH 'EM WHERE THEY ARE".

Now, when it comes to raising thousands of millions of dollars by taxation, the old rules must be cast aside. We have got to have this money. The thing to do, then, is to go where the money is. It's foolish—it's a waste of time—to talk about "making

the rich pay the expenses of the war." The rich people are so called because they have the money. Those who have the money have got to turn it in to the government. Of course the rich have got to pay for the war! The railroad trackman with his \$900 a year and rising prices can't finance the purchase of fifteen or twenty million rifles. The best he can do is to keep the track in order so that the rifles can be hauled to the necessary place of delivery. The man who owns the railroad has got to furnish the money to buy the rifles. In framing this taxation bill, we have got to go where the money is.

* * * *

So here's a motto for the committee in Washington—"KETCH 'EM WHERE THEY ARE."

PRIMARY TENDENCIES

The early August primaries indicate two things—one symptomatic of apathy and the other of alertness. There has been a tendency to renominate incumbents and there is a tendency to nominate progressives in both parties. The renomination of the incumbents may indicate in part apathy. There being no particular reason for an election this year except the freak provisions of American law, which fixes elections by the calendar, the people are inclined to leave men in offices just as they would automatically stay in office if there were no election. But, on the other hand, the general preference for progressive Democrats like Folk of Missouri and Owen of Oklahoma and for progressive Republicans like Capper and Allen in Kansas, and even for a semi-progressive like Charles S. Whitman for governor of New York indicates that the people are alert enough to distinguish between two types of men and are unanimous which type they prefer—Fresno Republican.

THE LONG AND THE SHORT OF IT

"Well, the long and short of it is that you are too short to remain long in the marines," said the U. S. marine recruiting sergeant at the Minneapolis recruiting station to Warren Tremont Long, of that city, when he attempted to enlist in the marine corps.

Long passed an excellent physical examination except that he was too short.

Long was long on patriotism and ambition and wished to go even if it should happen to be for a short while.

"That's the way it goes," he said. "Some little fellow like me who is crazy to go can't make it and some big husky who ought to break his neck to go, has to be almost dragged up to get him to sign up."

A letter written on a biscuit and mailed in France has reached its American addressee safely. In Germany that letter would have been eaten by the clerk who cancelled the stamp.

Judging from the treatment given the allied envoys at Archangel, the residents of that charming North Pole suburb are not archangels.

Hindenburg really must be out of it. We haven't heard a word this time about "retreating to victory."

SENATOR BREED IN TOWN TODAY

Acting Lieutenant-Governor Candidate for Election to That Office

Arthur H. Breed of Oakland, state senator and acting lieutenant governor, was in Santa Ana today looking after his campaign for lieutenant governor in this part of the state. He is accompanied by O. R. Morgan of Oakland, owner of the Modesto News. Mr. Breed expects to remain in Southern California about ten days, and in that time will visit all of the important cities and towns south of the Tehachapi in the interest of his candidacy.

The party is making the trip by machine, and left this afternoon.

At the opening of the last session of the legislature Senator Breed was elected president pro tem of the senate, and when a little later Governor Stephens succeeded Hiram W. Johnson as chief executive of the state, he automatically became the acting lieutenant governor. Breed is one of the most forceful men in the legislature, and as presiding officer of the senate he distinguished himself by the able and masterful manner in which he ruled over that body and expedited the business that came before it.

"I wish to wind up my campaign down here in the south," said Senator Breed today, "and shall accordingly pass the rest of the time between now and the primary in this part of the state. I am not on a speech-making tour. I simply am renewing old friendships and making as many new ones as possible."

"I have been performing the duties of lieutenant governor ever since Mr. Stephens became governor, and believe my record in that capacity entitles me to be elected to the office which I now hold by succession. I have served two terms in the state senate from my district, and so far have found few people who believe there should be any change in the office I now hold."

Senator Breed has two sons in the military service and he declares himself to be heart and soul for anything that will help to win the war.

ANNUAL MEETING

First Presbyterian Missionary Society Gathers For Out Door Reunion Yesterday

The Missionary society of the First Presbyterian church held its annual all-day meeting yesterday in the spacious, shady grounds at the home of Mrs. H. S. Gordon.

The devotional services were in charge of Mrs. E. L. Morrison, who gave a very helpful message on the subject "Worry," giving to her hearers "Bob" Burdette's "Best Editorial" upon that topic.

Mrs. W. E. Ward gave a short talk along temperance lines, and the missionary secretary, Mrs. R. J. Bleee, gave some interesting items from that field of work.

Mrs. W. W. Anderson told of the "Orientals in the United States," and what is being done for their uplift.

Mrs. E. P. Stafford gave a report from the Presbyterian, after which adjournment was taken for lunch and a social hour. Twenty-five ladies ate their picnic luncheon under the trees, hot coffee being served by the committee.

The afternoon session was opened by Dr. M. Maud Allen of India, who gave a very inspiring talk upon her medical and religious work in that country.

Miss Estella Daniels, of the local congregation, who leaves for Valparaiso, Chile, in October, told something of the work she hopes to do in the future, among the girls in a mission school in that city. She told of the influence that had led her to take up the life of a missionary, and her enthusiasm for her beloved work was a source of inspiration to the sixty ladies present.

Very appropriate was the subject, "Rejoice," used for the closing devotions, which were in charge of Miss M. Ida Mitchell. After the benediction, pronounced by Rev. T. E. Stevenson, the meeting closed by singing the new verse for "America."

"FEWER POCKETS"

The Industries Board
Fewer pockets permits
To men who afford
New suits with good fits;
More cloth must be stored
For uniform kits,
And this novel order seems prop-
er to me,
For reasons that all men can
easily see.
Civilians need not
Half the space that they did;
Few things they have got
That in pockets are hid;
And tailor men ought
To do as they're bid—
The purse takes no room, since
emergencies thin it;
What use is a pocket with naught
to put in it?

HOLBROOK-JACKMAN

Wedding That Has Been a
Secret Since August 6th
Leaks Out at Concert

Carefully guarded secrets sometimes keep and sometimes they do not. Until last night an event that occurred at San Diego on August 6 slipped from secrecy into the knowledge of the friends of the two most concerned. This particular secret concerned a wedding.

Jean Jackman of 627 North Van Ness, Santa Ana, became the bride of Deputy Sheriff Charles A. Holbrook. That was on August 6, and the ceremony was performed by Rev. Crabtree at the Central Christian Church, San Diego.

The bride and groom laid their plans to keep the announcement of their wedding secret for two months. Then, as a surprise, they would spring the news and have the laugh upon those who had not known that their courtship ended weeks before in a wedding at San Diego.

Last night Mr. and Mrs. Holbrook attended the band concert at the park together, and while there with other friends along came someone who had seen the couple at San Diego together a couple of weeks ago. That fact was mentioned, and before anyone knew it the secret was torpedoed and the two survivors admitted the truth.

Both Mr. and Mrs. Holbrook are well known and popular here. Mrs. Holbrook is the daughter of J. H. Whitney, who recently moved from Santa Ana to Salt Lake City, Utah.

SUPPER AT BEACH

N. M. U. Club Guests of Mrs. E. A. Stockslager and Daughter at Beach

A very jolly outing was enjoyed last evening by the members of the N. M. U. club, who were invited to Balboa to take supper and spend the evening with Mrs. E. A. Stockslager and her daughter, Miss Hazel Stockslager, who are summering at that popular resort.

The supper-table was bright with yellow blossoms and an appetizing menu was thoroughly enjoyed by the girls, their appetites whetted by the pleasant drive.

For a brief time after supper, the merry group enjoyed social chat, when the return trip was made.

Those participating in the evening's enjoyment, besides the hostesses, were Mrs. Earl Munsey of Pasadena, Misses Frances Potts, Adeline Hill, Alice Wasser, Zoe Vanderlip, Joy Baker and her cousin, Blanche Baker of Kansas City, and Zelma Sturgeon.

BOY LAYS AND NAILS
3000 SHINGLES AT
ORANGE IN 9 HOURS

Elton Moore, 13-year-old son of Mr. and Mrs. W. D. Moore of 114 West Santa Clara avenue, is some shingler. And he is not a hair shingler, either. He shingles the top, all right, but his expert work is done on the tops of houses and not on the tops of heads.

The lad works with his father, who is a carpenter, and who has the contract for putting a new roof on a packing house at Orange. Yesterday Elton laid and nailed 3000 shingles in a nine-hour day.

Elton is not all "puffed up" over his performance, but just the same he wants to know if there is an embryo carpenter hereabouts who can beat his record.

SPLINTER OF STEEL EMBEDDED IN EYE OF OREL HARE

Specialists Hope to Draw It Out From Rear of Eyeball With Powerful Magnet

WESTMINSTER, Aug. 14.—Orel C. Hare, proprietor of the Westminster garage, was the victim of a serious accident on Monday afternoon. While stooping over doing some welding a splinter from the edge of the hammer flew into one of his eyes, piercing the lid and eyeball. He was taken immediately to a physician in Santa Ana, who advised him to go to a specialist in Los Angeles, where an X-ray could be used in locating the piece of steel. He returned home and was taken to Los Angeles the same evening by J. O. Pyle of Smelter, Mrs. Hare also accompanying her husband. The X-ray located the particle of steel back of the eyeball. By the use of powerful magnets the physician hopes to be able to draw out the steel and save the sight of the eye.

Mrs. Phil McClintock Burned

Saturday morning while re-lighting the distillate burner under the tank used to sterilize the milk utensils, Mrs. Phil McClintock was startled by a loud explosion. Some oil had run into the generating cup and the gas formed was ignited by the lighting of the match. The flames shot up about three feet and soot was sent out into Mrs. McClintock's face. One of her hands was also considerably burned, but she considers herself fortunate it was no worse.

MESA ASSOCIATION ENJOYS EVENING OF MUSIC

HARPER, Aug. 14.—The regular monthly meeting of the Newport Heights Co-operative Association at the school house last week was wholly given over to the enjoyment of music. The program opened with a violin solo by Voile Ward, accompanied on the piano by his mother, Young Ward is a promising student of the master instrument. The musical feature of the evening was a trio orchestra from Santa Ana composed of Mrs. Mills, as violinist, Mr. Mackey, cello and Mrs. Bachus, pianist. They rendered beautiful selections in a way that won the close attention and applause of the audience. Mr. and Mrs. Frank L. Dodge were called for an impromptu vocal selection and sang an old patriotic song, responding to an encore with "From Maine to California." The orchestra then played a number of old familiar songs, the audience joining in singing. President eGorge Huntington on behalf of the association moved a rising vote of thanks to the entertainers, which was followed by refreshments of ice cream and cake.

Sailboats Refuse To Sail

The sailboat Amanda on its voyage to Catalina last week was becalmed at sea before reaching the port of destination. There was no power above the sea and not a bit below; though the captains swore their heads off, the darned boats wouldn't go.

Mr. and Mrs. R. G. Roberts of Los Angeles delight to spend Sunday at their newly improved place on Newport Heights. They are enthusiasts in the line of making improvements by planting trees, shrubs and flowers that will grow into adornments to their home and those fruits and vegetables that make for a well set table.

Mr. and Mrs. Walter Young are enjoying a visit from Mrs. Young's aunt, Mrs. Hall of Pasadena.

Mrs. 2McKillop and Mrs. Burns of Long Beach, as passengers with Mr. and Mrs. F. M. Hanchett, motored over to visit Mr. and Mrs. H. B. Woodrough on Monday.

Don Kelley, Mr. Jeffers and H. B. Woodrough are a trio who have had recent experience in cranking kicking automobiles with nicely bandaged hands to show for it.

Catherine Spaulding of Los Angeles was an over-Sunday visitor at the home of her grandfather, E. A. Spaulding of Fairview Farms. Her father came after her on Tuesday.

William Finch took a trip to Owenson last Saturday where he bought some lots about five years ago. Like many other new towns that town has not grown out of recognition.

A sister of Mrs. Gardner came down from Sacramento recently on account of Mrs. Gardner's serious illness.

Mr. and Mrs. George Huntington were made glad by a visit from their old time friends Mr. and Mrs. Res Stansbury of Sierra Madre. On Sunday the two families attended the G. A. R. encampment at Huntington Beach.

Mrs. M. B. Armstrong has had experience with a sick automobile starter, which so far recovered in a Santa Ana auto hospital she brought it home on Monday.

Mrs. E. A. Spaulding is anticipating a visit from her mother this week. She is 81 years old and lives in Phoenix, Arizona.

WINTERSBURG

CLAYTON ALMIND IS NEAR BATTLE FRONT WITH AMERICANS

War Just Like a Game of Checkers, He Says, Wait Till We Really Begin

WINTERSBURG, Aug. 15.—Mrs. W. G. Alford has received the first word from her son, Sergeant Clayton Almend. Two letters, dated July 2 and July 3, coming last Saturday and others of the date of July 12th and 14th, were received on Monday.

Almend is in the immediate battle front in France and the supply division, of which he is a member, is kept very busy. He says in his letter of the 3rd: "We have just finished unloading a supply train and the Huns seemed to have a special grade at us but I suppose it was universal. They are beginning to open up in preparation for tomorrow's Fourth of July celebration.

"We will realize more than ever this year what the 'Fourth' symbolizes and I suppose the celebrations in the states will be more patriotic than ever before. We will have one grand Fourth. Imagine yourself watching a crowd high overhead surrounded by a drove of blackbirds and listening to the opening of the club shoot and you have a sample of what we hear and see here continually. Have just been watching half a dozen aeroplanes and some balloons up in the air, three of which, two balloons and one aeroplane were shot down. We are working hard and right in the noise. We sleep when we can but are liable to interruption by calls to retire to the dugout."

Mr. and Mrs. James Morgan and family spent Sunday as guests of Mr. and Mrs. J. A. Ross at Irvine.

Mr. and Mrs. J. O. Pyle entertained Mrs. Anna Campbell of Westminster on Saturday and Sunday. Saturday evening they, with their guest, motorized to Los Angeles and visited the war exhibit and Sunday was passed at San Pedro where they visited the naval reserve station, going through the entire reserve.

Dr. and Mrs. U. G. Littell of the latter's brother, W. W. Blaylock and family.

Mr. and Mrs. W. T. Vanduff and family drove to Pomona Sunday evening and attended church.

Mrs. Ed Hyder and family who have spent the past month at her brother's cottage at Huntington Beach have returned home.

Mr. and Mrs. George Nichols and family lunched at Circle Park, Huntington Beach Sunday and spent the afternoon on the beach.

This war game is just like a game of checkers; first it's one's move and then the other's, but just wait until we get in and really try to clean them up."

The letter of the 12th told of a busy day but a number of the men were going to attend the celebration to be held that day in honor of France's Independence day.

Letter From Elmer Worthy

Mr. and Mrs. J. T. Worthy received a letter and card the past week from their son, Top-Serg. Elmer T. Worthy, the first received from him since his arrival "Over There." The letter, which was written two days before his arrival in England and mailed upon his arrival there, told of a pleasant, uneventful trip which he had greatly enjoyed. As he was not affected with seasickness he had an opportunity of appreciating the excellent fare given on the voyage. The card was headed, "Somewhere in England," and just told of the writer's arrival there.

Saw Drowning at Beach

Many Wintersburg people were at Huntington Beach Sunday and witnessed the tragic death in the surf of Richard Bone, of Oakland. Three local young men, Earl Walton and Marvin and Frank McGuire, were the first to go to the rescue and worked faithfully to save the man but the tide was rip, which was an unusual one for the beach, hampered their efforts and imperiled their lives also for a time, making the aid-of lines thrown from the pier necessary for their rescue.

Visit Fremont Valley

Mr. and Mrs. W. W. Blaylock and family, in company with Mr. Blaylock's sister and husband, Dr. and Mrs. U. G. Lytell of Santa Ana left yesterday morning in their machines for a 162 mile trip to the Fremont valley for a short visit with a friend.

Dinner and Beach Party

Mr. and Mrs. Claude Graham of Puente, were dinner guests of the former's parents, Mr. and Mrs. J. J. Graham, Sunday and in the afternoon a drive to Balboa was enjoyed. Those in the party were Mr. and Mrs. J. J. Graham, daughter, Miss Ethel, Mr. and Mrs. Riley Graham, Mr. and Mrs. Claude Graham, Mr. and Mrs. S. T. Burgess.

Leonard Cady drove to Los Angeles Sunday in his machine, accompanied by Russell Alford and Clyde Preston of this place and Morris Price of Bolsa. The young men spent the day viewing the Allies' exhibit at Exposition park.

W. A. Crane and Mrs. Vaile of Santa Ana, father and aunt of Geo. B. Crane, spent Wednesday as guests at his home.

Mr. and Mrs. Claude Graham drove down from Puente Friday to take Mrs. Graham's sisters, Misses Mary and Flotede Crane home with them for a visit and accompanied them home on Sunday. On Friday evening Mr. and Mrs. Graham and the Misses Crane visited the Allied Exhibition in Los Angeles and Saturday took a drive over to the Arcadia balloon grounds.

Mr. and Mrs. John Kettler and baby and their sister-in-law, Mrs. Albert Kettler of Blythe, who is spending a few weeks with her parents, Mr. and Mrs. William Edwards at Westminster, spent from Thursday until Sunday at the Arcadia balloon grounds.

Both machines were slightly damaged, but none of their occupants were hurt. The Ford, driven by A. R. Aldrich was traveling west on Chapman and started to turn in the street near Clark street. Miss Flippin, also traveling west, was about to pass the Ford at the time. Her Hudson struck the Ford almost amidships, straightened it out on its westward course, but was itself turned completely around and then over on its side. The Hudson's windshield was broken, a fender was damaged, and one of the pilot's slippers had disappeared. A careful search of the vicinity failed to discover the vanished footgear, which is apparently awaiting the touch of fairy magic.

The Ford's left front tire punctured in the front tire punctured. Mr. Aldrich was unhurt, as were Miss Flippin, her guest, Miss Anita Compion, and her nephew, little Thomas Flippin, who were accompanying her. Their escape, considering the antics of the Hudson, was rather remarkable.

A very pretty wedding was celebrated at the home of Mr. and Mrs. Robert Mapson on East Chapman avenue, El Modena, at 9:30 o'clock Tuesday morning, when their daughter, Miss Luella H. Pruden became the bride of Frank P. Sondericker, of Long Beach. Rev. Charles C. Haworth, pastor of the Friends church of El Modena officiated.

A profusion of pink roses and ferns

formed attractive decorations for the rooms. The bride was charming in a blue silk suit and white hat.

After the ceremony and congratulations were over, refreshments consisting of ice cream and cake were served. While the guests were occupied with refreshments the bridal couple slipped away for a short honeymoon trip.

They will make their home in Long Beach, Mr. Sondericker being employed at the shipyards at San Pedro.

Mrs. Sondericker is an active member of the Friends church at El Modena,

being much interested in the various departments of the church work. She will be very much missed. The good wishes and congratulations of their many friends will follow them into their new home.

These who were present at the wedding were the parents of the bride, Mr. and Mrs. Robert Mapson, and little son, Joseph; Mrs. Norah J. Stone, the bride's sister, and her husband, of El Modena; Mrs. Delta Sondericker, the bridegroom's mother, G. Floyd and Miss Lillian Sondericker, brother and sister of the bridegroom of Upland; Mr. Claude H. Sondericker, the bridegroom's brother, wife and two children of Tulare county; Ray A. Wallin, of Pomona; Mrs. Olga C. Schaffert, and Mrs. Orpha R. Haworth of El Modena.

A Ford driven by L. C. Alles, of North Glassell street, turned over on Tuesday afternoon when the steering knuckle of the car broke and Alles lost control of the car. The accident occurred on a sandy strip of road at a bridge near the Santa Ana river west of Olive. Alles was picked up unconscious and taken to the Anaheim sanitarium. He was brought home several hours afterward, when it was discovered that his injuries were not very serious. He suffered from concussion of the brain, was badly bruised and had a gash in his scalp.

A. F. Pargee, a recent arrival from Illinois, has purchased seven and three-quarter acres of Valencia orange ranch from F. M. Gulick. The ranch, which is located on East Collins avenue, of Mr. Pargee and his family will move there soon.

L. W. Thompson of the Ewing garage suffered a painful injury to a finger of his right hand while helping to unload a barrel of oil at the garage. The finger was partially stripped of flesh and amputation was at first thought necessary, but later was decided against.

The Ku Ku Sim Camp Fire Girls enjoyed a hike out into the country last evening. They cooked their supper by the roadside. The menu included roasted corn, "hot dog" sandwiches, pickles and fruit.

The girls planned another hike for next Wednesday. Each member is to have one guest.

ORANGE GROWER IS SUED FOR FAILURE TO DELIVER FRUIT

Because he failed to deliver 900 boxes of oranges to the Placentia Mutual Orange Association, Aug. Piepenbrink was today made defendant in a suit for \$450. The complaint, filed by Attorneys Williams & Rutan, states that Piepenbrink was a member of the association, and signed an agreement to deliver his fruit to the association to be packed and marketed, or forfeit fifty cents a box for every box he failed to deliver. The complaint states that between March 15 and May 1 of this year, the defendant sold 900 boxes of oranges outside the association.

FARRELL LACKS PUNCH

OAKLAND, Cal., Aug. 15.—Marty Farrell danced away with his bout with Spud Murphy at Emeryville. Murphy vainly tried to connect a right swing on numerous occasions but never got within the swinging distance of Farrell.

Farrell, although he had it on Murphy, couldn't place a solid punch. He hit Murphy with everything but the bucket but there was no real force behind his blows.

BOWER IS HAPPY TO GET BACK IN GOOD OLD U. S. A.

Santa Ana Boy on Battleship Returns From Cruise on the Seas

Earl Bower, son of Mr. and Mrs. T. M. H. Bower of 307 Garnet street, is back on this side again and is a happy boy because of the event and in anticipation of a visit home. Bower was radio operator on the Chauncey which was sunk in the Mediterranean when rammed by an English boat on Nov. 19, 1917. It was thought for a time that he was one of the twenty-one men who lost their lives.

Later he was assigned to the Bainbridge, engaged in conveying U. S. troop boats. Whether he is still on that vessel or whether he has been assigned to another boat and service is not clear in a letter to his parents. He tells of stopping at the Azores and the Bermuda islands.

He writes his parents as follows:

"Hurray! Just arrived in the good old U. S. A. Maybe you think I am not some tickled boy. And to add to the pleasure of the day, I just received fourteen letters. Now for the news. We had a pretty good trip, stopping at Azores and the Bermuda islands. It was a pretty tiresome trip, but it is all over now. Now don't take this to heart, but I MAY get a furlough home. I am at Charleston, South Carolina, and it is quite a distance across. I may only get enough time to make a visit around Kansas. I will have to have at least a thirty-day furlough to get home on. I doubt very much if I can get it. I am going to try to go to a radio school. I have little hope for that."

**COMES TO TALK
WITH APRICOT
GROWERS**

Apricot growers who are at all desirous of finding out anything about market conditions for dried apricots will do well to attend a meeting of apricot growers to be held tomorrow evening at 8 o'clock at Collins packing house. Harry W. Lewis gave notice of the meeting today. He said that he had word that C. G. Hamilton of Hemet, a director of the California Prune and Apricot Growers' Association, co-operative, will be present. Hamilton is well informed upon market conditions. He will talk over the situation with growers. This meeting is for apricot growers, regardless of whether or not they are members of the association.

MILLS BOBS WITH MUNICIPAL GAS PLANT SCHEME

Would Have Cities of County Co-operate In Distributing Commodity

A. A. Mills has had his ear to the ground again, and this time reports that the Edison Electric company is asking for a raise in their rates and a hearing before the Railroad Commission has been set for August 19 when the merits of their case will be heard along with any protests which may be entered by the consumers.

At meeting of the Anaheim board of trade Mills suggested that a committee be appointed to enter a protest.

Mills claimed that while the city of Anaheim has a contract with the Edison company that the rate here will be raised in case the commission deems the demands of the company just.

The subs are getting scarce and I think I may truthfully say no troopers and comparatively few merchantmen are lost. We saw several merchant ships in the English Channel that had been torpedoed and were being repaired.

"As you know, the German offensive has been renewed, but for no gains.

"We Americans all feel that since we are so far from home, the only thing to do is to lick him—out of the Boches and go back to God's country as soon as possible; not but what France and England are great and beautiful, particularly the country sections. The cities are very much ramped and ugly compared to those of the U. S. A. and of course we miss the broad expanse of ranch and range we find in America, but there sure seems to be some bumper crops awaiting the harvest in this section.

"I have seen no devastation nor signs of suffering among the peasants of France or England. Of course when we start Huns the other way we will see what they have been doing to this simple, peaceful and beautiful land.

"We are near enough to hear the guns on the firing line. School for us begins next Monday and as soon as our short intensive course is finished we will rejoin our companies whenever they may be, and when they have also had some intensive culture we expect to step into the line somewhere.

"The day before we got here we saw a whole train load of German prisoners being sent back from the front. Some of our boys talked to them and they were incredulous when told of the hundreds of thousands of Americans pouring into the back areas of all the lines and the almost a million already here. They were pretty well fed and clothed but some were very young looking and some quite old. If it were not absolutely necessary, it would be a shame to have to put the cold steel into such specimens but since that is the only way to reach the German government it must be done—and it will not be done half heartedly.

"The Allies are in the ascendency. We've got a little job to do, Daddy, and be it one, two, or ten years, we figure to work at it till it is done, and then we'll be home.

"I am well and there are no immediate prospects of me being otherwise.

"Liberty Loan Specials" Will Tour This District

LOS ANGELES, Aug. 15.—Two "Liberty Loan Specials" will tour this district from the opening to the closing day as a feature of the Fourth Liberty Loan campaign. Each train will carry battlefield trophies cap-

tured by the Americans on the Aisne-Marne front and General Pershing is making the selection to be shipped immediately. The trains will be made up of a baggage car, tourist sleeper and two flat cars to carry the larger trophies.

American heroes, now in hospitals as a result of recent fighting, will bear the brunt of the speaking campaign in this district. Twenty-five of these soldiers have been assigned to this district. Many speakers of national prominence will assist, among them Lieut. Vincent de Wierwicki of the French high commission.

Automobile tours will be made to reach the communities not touched by the railroad lines. American soldiers will be assigned to these trips.

Winners in the Fourth Liberty Loan advertising copy contest among the seven states of the Twelfth Federal Reserve District follow:

Dan Miner, Los Angeles, first prize, \$50.

The H. K. McCann Company of San Francisco, second, \$30.

The Couche Advertising Service, Portland, third, \$20.

Hong Cooper Company, San Francisco, first honorable mention.

Charles W. Clay of Los Angeles, second honorable mention.
